Objective

Seeking a challenging role in a reputable organization to leverage my technical and management skills for organizational growth while enhancing my knowledge of emerging IT trends.

Professional Summary

- Expertise in working with Java using IDEs like Eclipse and Visual Studio Code.

- Extensive in software development with a major focus on Java technology.

- Knowledge of web frameworks like Spring Boot.

- Good at designing and implementing RESTful APIs with Java programming language and Postman for API testing.

- Knowledge of database such as SQL.

- Versatile web developer proficient in HTML, CSS, and JavaScript skilled in crafting engaging websites and intuitive user interface to deliver impactful digital experiences.

- Experienced in using Git and GitHub for version control system.

Education

Rajeev Gandhi Memorial College of Engineering and Technology   **October 2023 – May 2025**
Masters of Computer Applications (MCA) 8.1 CGPA   *Nandyal, AP*
Sai Sree Degree College, Dhone(RU)   **June 2020 – March 2025**
Bachelors of Computer Science (B.Sc) 7.9 CGPA   *Dhone, AP*

Projects

Smart Email Assistant | *Java, Spring Boot,ReactJs,SQL*   **May 2025**
* Built the backend with Spring Boot to handle secure Gmail API integration, manage email data, and generate AI-based replies.
* Developed a responsive front-end using ReactJS to display emails, suggested responses, and allow user interaction with the assistant.
* Integrated OpenAI GPT APIs to generate context-aware and human-like reply suggestions based on email content.

Doctor Appointment System | *Java, Spring Boot, ReactJs, SQL, Vercel*   **March 2025**
* React.js is used to build a responsive and interactive user interface for patients and doctors.
* Spring Boot handles backend logic, including authentication and REST API services.
* MySQL stores user details, appointments, and doctor availability in structured tables.
* Patients can register, log in, view doctors, and book or cancel appointments easily.

Pizza Bill Generating Application | *HTML, CSS, Java script, Node.js, MySQL, Xampp* (Click Here)   **October 2024**
* HTML, CSS, and JavaScript are used to design the interactive user interface for placing orders and viewing bills.
* MySQL is used to store pizza order details, billing records, and customer data.
* Node.js with Express.js handles backend logic, routing, and communication with the database.
* XAMPP server helps in managing and testing the MySQL database locally.

Technical / Soft Skills

Languages: Core Java, Python, HTML/CSS, JavaScript, SQL,React Js
Developer Tools: VS Code, Eclipse, Postman, Git/GitHub
Technologies/Frameworks: JDBC, Spring, Spring Boot
Soft Skills: Good Communication Skills, Teamwork, Problem-Solving Skills

Internships

- Full-stack Developer Intern
- Java Programming Intern
- Web Development
